A. Thanks first of all thanks for the compliment yeah it appears every one is feeling the CD from Grand ma to young children

Q. how long have you been doing music? Can you please define your sound?

A. I've been doing music for about 25 years and still going. My sound is like no other it's very melodic with a Caribbean twist in a hip-hop and r n b form

Q. CT has never really had a Hip-hop presence since the Skinny Boys and Maybe Mook & Fair, How do you purpose this CD will penetrate CT inability to Break a record and sell copies

A. well big up to the two group you mentioned the way I view it is determination is the key for success I've been just that. Also I produced a Album deep from with in me not expecting sales but delivering positive message that any human being can relate to so on that note the more people that hear it the more penetration it will make.

Q. What's the vibes behind the two sounds A Letter To Mom and Let Us Pray usually rapper are scared to put their emotions into the music but your different Why?

A. I'm just being who I am not too concern about who may comment on what type of music I put out. I'll say just keep it real as to what is going on inside of you.

Q. How come you didn't take the natural rapper road when making your CD by busting your gun and calling all women ho's and b words?

A. I consider my self a pioneer. I lay the blue print for people to follow. I also feel life is much more valuable the being called out your name though it is often done.

Q. J what's the buzz been like since the CD

Dropped This summer?

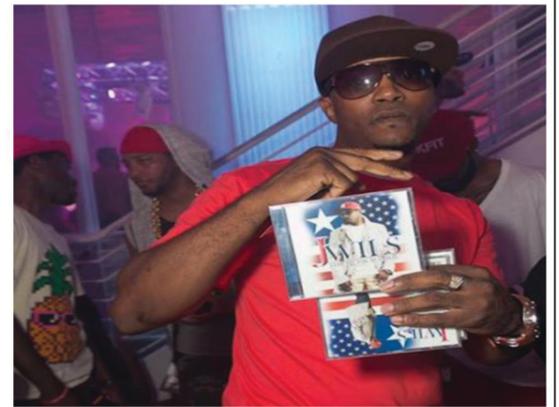

A. The response from this album is overtaking, everyone that herd the album cannot stop listening to it, very simple to follow no profanity great beats meaningful lyrics it is a must have for your musical collection.

Q. What is your Favorite song on the CD

A. The American Dream why? Because after all the long struggle I am living my dreams of a CEO/OWNER/PRODUCER/SONGWRITER/ENGINEER AND PERFORMER

Q. J When is the J Wils Concert hitting CT or is there any thing in the works like a tour or even a live performance so the people can see you do your thing?

**Chocolate City CD Review**

Honestly speaking JWils, CD "The Muzik is in ME, is bananas, it has something in there for everybody, you will not have to skip tracks nor would you have to decrease the volume because this guy doesn't curse on his Album.

The Lyrics are a real account of his life story, and I would recommend this CD to my daughter for real, the stand out tracks are of course the title track "American Dream" is number one.. Then as I was letting Grand Puba listen to it he likes "This Time Around" and of course I like the message behind "Thumbs up, Guns Down"

But, over all I enjoy all of the entire musical journey and this is Ram - If you know me, you know that I'm not faking no jacks!

The truth is the truth, we have a artist in CT that can break into the music scene with #1 records and my whole team is backing this man, Shout out to my dude J.WILS, you on fire bruh!!.....BOSS
